### Vacancy Announcement

#### **CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD** **11020 SUN CENTER DRIVE, #200, RANCHO CORDOVA, CA 95670**

The Sacramento office of the California Regional Water Quality Control Board has a vacancy for a permanent full-time Engineering Geologist in the Underground Tank Unit.

#### **ENGINEERING GEOLOGIST (RPA 04-150-82)**

**DUTIES:** Under the direction of a Senior Engineer, review and evaluate investigation reports and prepare formal critiques and comments regarding engineering prescribed or developed remediation systems and their compliance with laws, regulations and guidelines; conduct investigations and studies of violations; collate and analyze ground water data and review and evaluate computer modeling programs used to predict hydrogeologic conditions and remediation efficacy and write enforcement letters; prepare enforcement orders; conduct field inspections and sampling; apply State regulations and Board guidelines. Track activities and organize data using computer databases (Geotracker and LUSTIS); prepare briefings and oral presentations for the Board. Advise and consult with local implementing agencies for sampling and testing procedures, laboratory analysis requirements, interpreting test results, and technical review of site assessments and remedial actions proposed and completed, and disseminate information on new and alternative remedial technologies. Advise staff of counties participating in the State Board Contract Program for underground tanks

**MINIMUM QUALIFICATIONS:** Effective communication skills including both verbal and written skills; ability to work well with other disciplines; good customer service skills, proficiency in standard computer applications.

**DESIRABLE QUALIFICATIONS:** Background/experience/knowledge of groundwater, analytical chemistry and geology; effective communication skills including both verbal and writing skills; ability to work well with other disciplines; good customer service skills; ability to conduct field inspections; proficiency in standard computer applications (e.g. access, word, excel); the ability to work independently; good interpersonal skills; and good organizational skills.

**WHO MAY APPLY:** Applications will be accepted from individuals with current list, transfer or reinstatement eligibility for Engineering Geologist. Applications will also be accepted from the Water Resources Control Engineer classification.

**Permanent-Full Time: Open Until Filled. Submit standard application (Form 678) and resume (including references) to James Munch (916) 464-4618 at the above address, or fax (916) 464-4704. A preliminary review of applications will be made, and those most qualified and eligible will be scheduled for an interview.**
